

Education

Sun Yat-sen University
GPA: 4.2/5.0 (Rank: 4/166, Top 2.5%)
Selected Courses: Operating System (98), Machine Learning (96), Introduction to Robotics (95), Advanced Programming (95), Linear Algebra (95)

Sep 2023 – Expected June 2027
Bachelor of Engineering in Artificial Intelligence

Publications

(* Equal Contribution)

OSWorld 2.0: Benchmarking Computer-Use Agents on Long-Horizon Real-World Tasks
XLANG Lab and Collaborators (**Kaiqian Cui is a core contributor**)
[\[Paper\]](#) [\[Project\]](#)

FreqEdit: Preserving High-Frequency Features for Robust Multi-Turn Image Editing
Yucheng Liao*, Jiajun Liang*, **Kaiqian Cui***, Baoquan Zhao, Haoran Xie, Wei Liu, Qing Li, Xudong Mao
Accepted to **CVPR, 2026** [\[arXiv\]](#) (*Equal Contribution)

Exploring Lifelong Adaptation: In-Context Reinforcement Learning in Non-Stationary Environments
Ye Wang*, **Kaiqian Cui***, A Run*, Tao Zhang, Qin Jin
Under Review (*Equal Contribution)

Research Experience

Research Assistant: Computer Use Agent Evaluation
Advisors: Prof. Tao Yu

University of Hong Kong
Feb 2026 – present

- Working on evaluating the capabilities and limitations of digital computer agents in real-world, open-ended tasks.

Research Assistant: Lifelong In-Context Reinforcement Learning
Advisors: Prof. Qin Jin & Ye Wang (Ph.D. Candidate)

Renmin University of China
July 2025 – Feb 2026

- Proposed the "Lifelong ICRL" paradigm for continuous agent adaptation and engineered a high-performance JAX-PyTorch framework to simulate large-scale non-stationary environments (XLand-Minigrid, Kinetix).
- Conducted a systematic empirical study quantifying the critical roles of training regimes, architectural inductive biases, and scaling laws in enabling robust lifelong adaptation.

Project Lead: Multi-Turn Image Editing
Advisor: Prof. Xudong Mao

Sun Yat-sen University
Sept 2024 – Nov 2025

- Developed FreqEdit, a training-free framework utilizing frequency-domain constraints to resolve texture collapse and detail loss in Flow Matching models (e.g., FLUX.1) during continuous editing.

Selected Awards

National Scholarship	Highest Honor for undergraduates in China	2024, 2025
Baosteel Excellent Student Scholarship	Awarded to only 504 students nationwide	2025
SYSU Outstanding Scholarship (First Class)	Top 5% in School of AI	2024, 2025

Technical Skills

Frameworks& Tools	Python (PyTorch, JAX), C/C++, LaTeX, Linux (Shell), Git, Docker
Languages	English (CET4, CET6)
